Top issues found (6 total, top 5 shown)

#	Issue	What it's costing you
1	**Your contact page has no form** critical	Most visitors won't open their mail app and type — those enquiries silently drop.
2	**No action button visible in the header on mobile** high	On phones, most visitors never scroll — without a top button they can't reach you at all.
3	**No WhatsApp click-to-chat** medium	Many visitors prefer WhatsApp over forms — you're losing the channel they actually use.
4	**No reviews, testimonials or client proof on the page** medium	New visitors have no reason to trust you over an established competitor.
5	**No pricing visible anywhere** low	Buyers self-qualify on price — hiding it delays every conversation and filters out ready customers.

Fix: all of the above repaired in 48 hours, fixed price, with an automated test suite so it can't silently break again. — **no obligation, this report is yours either way.**
