Top issues found (8 total, top 5 shown)

#	Issue	What it's costing you
1	**No action button visible in the header on mobile** high	On phones, most visitors never scroll — without a top button they can't reach you at all.
2	**Homepage takes 4.3s to fully load** high	Every extra second of waiting cuts conversions — most visitors leave before it finishes.
3	**No main heading (H1) on the page** medium	Visitors can't tell what the business offers in 3 seconds.
4	**No reviews, testimonials or client proof on the page** medium	New visitors have no reason to trust you over an established competitor.
5	**No pricing visible anywhere** low	Buyers self-qualify on price — hiding it delays every conversation and filters out ready customers.

Fix: all of the above repaired in 48 hours, fixed price, with an automated test suite so it can't silently break again. — **no obligation, this report is yours either way.**
