Top issues found (4 total)

#	Issue	What it's costing you
1	**Your contact page has no form** critical	Most visitors won't open their mail app and type — those enquiries silently drop.
2	**No action button visible in the header on mobile** high	On phones, most visitors never scroll — without a top button they can't reach you at all.
3	**No meta description** low	Search results show random text instead of your pitch — fewer clicks from Google.
4	**No social sharing preview (Open Graph)** low	When someone shares your link it appears as a bare URL — fewer clicks.

Fix: all of the above repaired in 48 hours, fixed price, with an automated test suite so it can't silently break again. — **no obligation, this report is yours either way.**
