Top issues found (4 total)

#	Issue	What it's costing you
1	**Your contact page has no form** critical	Most visitors won't open their mail app and type — those enquiries silently drop.
2	**No action button visible in the header on mobile** high	On phones, most visitors never scroll — without a top button they can't reach you at all.
3	**Homepage takes 9.6s to fully load** high	Every extra second of waiting cuts conversions — most visitors leave before it finishes.
4	**No reviews, testimonials or client proof on the page** medium	New visitors have no reason to trust you over an established competitor.

Fix: all of the above repaired in 48 hours, fixed price, with an automated test suite so it can't silently break again. — **no obligation, this report is yours either way.**
